

Meeting Agenda

Date: 2015-04-27

Facilitator: Anton Strandman

Participants: Fredrik Bengtsson, Jesper Olsson, Anton Strandman, Ulrika Uddeborg

Objectives:

§1 Code review

§2 Timeplan overview

§3 Decide what to do until next meeting

Reports:

- Setup Level
 - Level has been setup, some minor things to fix once other parts of the code have been implemented.
- Setup appState
 - Done, need to be slightly modified to use Level class.
- Setup physics manager
 - Done, needed minor fixes, taken care of
- Setup keybind manager
 - Jesper's idea of the functionality of the class varied from the other's.
Classes needs to be renamed. KeyBindings to contain a list of the keybinds.
KeyManager to be a wrapper class for InputManager.

Discussion items:

From the paragraphs above:

1

- Discussed how to handle the Keybindings and KeyManager classes, rework needed.

2

- A schedule for the remaining time has been created.

Other

- OS Independency
 - Done and working as intended. Might make default path as variable for readability.

Outcomes and assignments:

- (Dynamic) KeyBinds - Jesper
- Camera - Ulrika
- Checkpoints Fredrik
- Menu - Anton
